

WEBSITE REDESIGN — PROPOSAL

Prepared for TCA Outdoor LLC · Higginsville, MO · 2026

A website that turns browsers into **booked jobs**.

A modern facelift for tcaoutdoor.com — built around your real work and how customers actually reach out.

THE OPPORTUNITY

Your current site looks like a template and buries the phone number. This redesign puts your real projects front-and-center, makes it effortless to request a quote (including by text), and adds tools that help close bigger jobs — all on mobile, where most of your customers already are.

01 What you'll get

Modern, on-brand redesign

Built on your logo's lime + charcoal, not a stock theme.

Real project galleries

Your hardscapes, pools & masonry, filterable by trade.

Mobile-first & fast

Looks sharp and loads quickly on every phone.

Found on Google

Clean SEO structure + your service-area towns.

Facebook & Reviews wired in

One tap to your page and 5-star Google reviews.

Two-line click-to-call

East & West numbers always one tap away.

02 **Four features that book more work**

HEADLINER

Text-a-Quote

Customers text a photo of their yard and get a ballpark back — no forms, no phone tag.

SELF-SERVE

Instant Estimator

Pick a service, size & material and see a real price range in seconds — then request the real quote.

PROOF

Project Gallery

A filterable portfolio of your actual Missouri projects — hardscapes, pools and masonry.

BIGGER JOBS

Financing Calculator

Shows the monthly payment so a \$20k patio feels like \$390/mo — and drives more approvals.

03 Your own content, put to work

REAL REVIEWS

All nine Google reviews

Every review on your Google profile is on the page, word for word — including the lawn-care company that refers its own customers to you. Nothing invented.

YOUR POSTS

Your blog, brought forward

Your three published posts get a proper section with their own photos, each linking straight through to the live article.

04 Investment

REFRESH

\$900

ONE-TIME

- ✓ New look on existing pages
- ✓ Mobile-friendly + faster
- ✓ Quote form + click-to-call
- ✓ Facebook / Google links

05 Timeline — ready now

This is already built. Everything you just clicked through exists today — the design, your real project photos, and the working features. The only step left is your review.

✓ DONE

Design & content

Theme designed, your real project photos in place, copy written, pages laid out.

✓ DONE

Build & features

Site built — Text-a-Quote, the instant estimator, galleries and financing tools all working. Try them in the preview.

WHEN YOU'RE READY

Review & launch

Your review and any changes you want, then we go live and walk you through it.

06 Why it pays for itself

Fewer

missed leads — texting captures the customers who won't fill out a form or wait on a callback.

Faster

quotes — instant estimates and text-based quotes beat competitors still playing phone tag.

Bigger

jobs — financing turns "too expensive" into an easy monthly yes.
