

A website that turns browsers into **booked jobs**.

A modern facelift for tcaoutdoor.com — built around your real work and how customers actually reach out.

THE OPPORTUNITY

Your current site looks like a template and buries the phone number. This redesign puts your real projects front-and-center, makes it effortless to request a quote (including by text), and adds tools that help close bigger jobs — all on mobile, where most of your customers already are.

01 What you'll get

Modern, on-brand redesign

Built on your logo's lime + charcoal, not a stock theme.

Real project galleries

Your hardscapes, pools & masonry, filterable by trade.

Mobile-first & fast

Looks sharp and loads quickly on every phone.

Found on Google

Clean SEO structure + your service-area towns.

Facebook & Reviews wired in

One tap to your page and 5-star Google reviews.

Two-line click-to-call

East & West numbers always one tap away.

02 Four features that book more work

HEADLINER

Text-a-Quote

Customers text a photo of their yard and get a same-day ballpark — no forms, no phone tag.

SELF-SERVE

Instant Estimator

Pick a service, size & material and see a real price range in seconds — then request the real quote.

PROOF

Before / After Gallery

Drag-to-compare sliders and a filterable portfolio of your actual Missouri projects.

BIGGER JOBS

Financing Calculator

Shows the monthly payment so a \$20k patio feels like \$390/mo — and drives more approvals.

KEEPS THE SITE FAST, SAFE & CURRENT

Note: Figures above are illustrative placeholders for this concept and are not a formal quote. Final pricing is set after a short scope call once we confirm page count, features, and content.

04 Timeline — about 3–4 weeks

WEEK 1

Design & content

Finalize the theme, gather photos, write the copy, confirm pages.

WEEKS 2–3

Build & features

Develop the site, wire up Text-a-Quote and the interactive tools.

WEEK 4

Review & launch

Your review, revisions, go live, and a quick how-to walkthrough.

05 Why it pays for itself

Fewer

missed leads — texting captures the customers who won't fill out a form or wait on a callback.

Faster

quotes — instant estimates and same-day text replies beat competitors still playing phone tag.

Bigger

jobs — financing turns "too expensive" into an easy monthly yes.
